

Heatmap showing correlation coefficients for NINEO (Start Month, End Month, and NINEO-FC) for 11 months. The x-axis is 'End Month' (1-11) and the y-axis is 'Start Month' (1-11). A color bar on the right indicates correlation values from 0 (dark blue) to 1 (dark red). The diagonal elements are 1.0. Correlation increases as the time lag between start and end months decreases.
