

A heatmap visualization of the correlation matrix for 11 end months. The x-axis is labeled 'End Month' and ranges from 1 to 11. The y-axis ranges from 1 to 11. The color scale on the right indicates correlation values from 0 (dark blue) to 1 (dark red). The diagonal elements are all 1.0 (dark red). The off-diagonal elements show a clear pattern of decreasing correlation as the time difference between the end months increases, with values ranging from approximately 0.05 to 0.45.
